MEMORANDUM FOR: AD/RR

25X1C SUBJECT : [REDACTED] Polish Industrial Installations
25X1A REFERENCE : [REDACTED]

25X1C [REDACTED]

25X1C [REDACTED] it is requested
25X1C that ORR prepare [REDACTED] studies on the following Polish installations:

a. The power and hydrogenation plants at Auschwitz.

b. The power and hydrogenation plant at Blechhammer.

c. The power plant at Waldenburg.

d. The chemical plant at Dyhernfurth.

e. The nitrogen plant at Chorzow.

f. The power plant at Szombierki near Beuthen.

g. The power and chemical plants at Jaworzno.

h. The chemical plant at Kedzierzyn.

2. The individual studies should be somewhat brief and written in a manner understandable to a non-technician, yet contain the following information:

25X1C

a. Exact location [REDACTED], giving coordinates and location in relation to other neighboring industrial installations, cities, railroads, roads, rivers, etc. (Probably this can be accomplished in the form of a map.)

25X1C

b. Exact name of the plant, the German name if the plant was formerly under German administration, and the most recent name if the plant was renamed after the Communist takeover in Poland.

c. A short description of the industrial processes employed in a plant of this type and a list of the more important machines.

25X1C

[REDACTED]

d. A brief history of the plant. When was it first constructed, by whom, what did it produce during the war, how much of the plant was demolished by the Russians after the war, when was reconstruction begun, etc.?

e. If possible, a rough floor plan showing the foundations and general outline of the plant.

f. Available photography on the installation.
(If extensive, a GR/OCD listing will suffice).

3. All of the installations are considered [REDACTED] to be of key importance. We should welcome any comments or suggestions from your analysts regarding their views on the relative importance of these installations within the general framework of the Polish economy.

25X1A

4. No target date has been set for the completion of these studies; however, all of the studies are needed as soon as possible, and any efforts taken to expedite their preparation will be appreciated. We have been advised by [REDACTED] of the

MEMORANDUM FOR: [REDACTED]

SUBJECT : Studies of Selected Polish Industrial Installations
REFERENCE : Memorandum of 27 June 1955.
(ORR Project #20.762)

25X1A

1. In response to reference request, the Economic Research Area of ORR is collaborating with the Industrial Register of CCB by providing a review (with comment) of the pertinent material assembled by IR/CD.

2. You will find attached an explanatory memorandum and material representing the first part of this project, which concerns seven power plants. Comments of the Electric Power Branch, ORR, Materials Division, have been noted informally on the textual drafts prepared by IR/CD. The following plants are covered:

- a. Oswiecim (Auschwitz) Power Plant
- b. Blechhammer (Blachownia) North Power Plant
- c. Blechhammer (Kedziersyn) South Power Plant
- d. Waldenburg (Walbrzych) Power Plant
- e. Power Plant at Szombierki near Beuthen (Byton)
- f. Jaworzno Thermal Power Plant I
- g. Jaworzno Thermal Power Plant II
